STOP DOG BARKING

Barking Log

A simple record to track a persistent barking problem

Use this log to record when a dog is barking — whether you're helping a neighbour understand the problem or building a record for a formal noise complaint. Fill in a row each time it happens. A week or two of dated entries turns 'the dog is always barking' into specific, hard-to-dismiss evidence. Keep it factual and civil.

Date	Start time	Stop time	Duration	Likely trigger	How it affected you

General information only - check your local council or authority for how to report a noise nuisance.
